Le costanti riguardanti i percorsi delle cartelle sono state ristrutturare in modo da consentire alla classe PercorsiFile la costruzione completa sulle tre basi a disposizione: PERCORSO_CARTELLA_DATI, PERCORSO_CARTELLA_LIBRERIA, PERCORSO_CARTELLA_LIBRERIA_IMPORTATA. In questo senso, le costanti qui riportate come "nomi cartelle" sostituiscono le precedenti "percorsi cartella".
